

BIG FRONTIER DAYS PROGRAM PLANNED FOR SPRINGVILLE; RCA APPROVED RODEO APRIL 22

A great Frontier Days program is being planned by the Springville chamber of commerce, on April 21 and 22, with the April 22 date featuring an RCA approved rodeo that will attract top cowboys to try their luck with broncs and Brahmans from the well-known Cuff Burrell string.

The Frontier Days celebration will get under way on Saturday, April 21, with activities throughout the day. Features will include a carnival, an old fiddlers' contest, judging of the rodeo queen and an evening cowboy dance, to start at 9 P.M. at the community center.

The Sunday program will open with a rodeo parade at 10:30 A.M.; the rodeo will start at 1:30 P.M. sharp. Bull riding, bronc riding, calf roping and a "pig race" will be featured. In addition, Porterville's Fair Cowbelles will appear in their mounted precision drill.

Proceeds from the celebration, which is sponsored by the Springville chamber of commerce, will go to the Tulare-Kings County Tuberculosis Sanitorium Rehabilitation program. Show headquarters is Veda's Steak house in Springville.

Anticipating a bigger crowd than ever this year, the Gill arena grounds north of Springville are being completely worked over to provide seating capacity for 5,000 persons, with 400 reserved seats. Fences and chutes are also being changed to provide a large arena

and better all-around facilities. Members of the Springville chamber of commerce point out that on the April dates, the foothill country should be at its best. Soft drinks and food will be available on the rodeo grounds for families desiring to enjoy an all-day outing.

FAIR GOES TO BALLPARK FOR '51 SHOW

The Tulare County Junior Livestock Show and Fair will move into the Porterville Municipal ball park for its 1951 program, May 24, 25 and 26 — under provisions of an agreement reached Tuesday evening with members of the Porterville city council.

Permission to use the park was granted by the council, with City Manager Harold Corbin, representatives of the fair and representatives of the Porterville Packers to work out details of arrangements so that the fair and baseball will not conflict.

(Continued on Page 10)

Jack Chrisman Elected President Of Tulare County Cattlemen's Assn.; Ralph Jones Again Named Secretary

Jack Chrisman, Visalia, was elected president of the Tulare County Cattlemen's association at the annual spring business meeting of the organization held Friday at Berkshire's Palm Cafe; Ralph Jones, Porterville, was re-elected secretary and Russell Hesse, Tulare, vice president.

New directors named Friday were: George Hinkle, Orosi, Claude Paregian, Visalia and Kenneth Beck, Tipton. F. R. Farnsworth, retiring president, was elected state association delegate. Speakers at the meeting, who discussed legislation concerning the cattle industry and general market and price outlook, were John Baugartner, president, and Ed Dick, secretary, of the California Cattlemen's association.

John Guthrie, past president of the Tulare county and California association, attended the meeting, getting back from Washington Friday morning, where he had participated in meetings with Michael DiSalle, head of the national price stabilization program, as a representative of the western cattle industry.

Enjoyed as dessert at the meeting was a large cake, presented by

Smith Bakery to the Cattlemen's association, as the outstanding agricultural organization of the area during the past year, at last Thursday night's meeting of the Porterville chamber of commerce. The cake was cut by Mr. Farnsworth and served by Esther Jones, representing the Tulare County Cowbelles.

F. R. FARNSWORTH, retiring president of the Tulare County Cattlemen's association, cuts the Smith Bakery cake that was presented to the cattlemen's association at a Porterville chamber of commerce banquet Thursday night. Esther Jones, left, representing the Tulare County Cowbelles, served the cake to cattlemen at the spring business meeting of the association in Porterville, Friday.

Rabbit Production

Fundamentals of rabbit production will be discussed at a meeting of 4-H club members and interested adults, scheduled for the George Sears ranch near Terra Bella, next Saturday, at 1:30 P.M. Mr. Sears, a prominent rabbit breeder, will be assisted at the meeting by Farm Advisor W. F. Rooney and Ray L'Ecuyer, of the Corcoran Milling company.

DIRECTORS OF the Tulare County Cattlemen's association, shown at the annual spring meeting, held in Porterville last Friday, left to right, front row: F. R. Farnsworth, Porterville, retiring president; Vernon Gill, Springville and Kenny Beck, Tipton. Back row: president and newly elected state as-

sociation representative; Tom Martinez, Porterville; Ralph Jones, Porterville, secretary; Jack Chrisman, Visalia, newly elected president; Vernon Gill, Springville and Kenny Beck, Tipton. Back row: Claude Paregian, Visalia; George Hinkle, Orosi; Clyde Carlisle, Porterville; Ralph Mehrten, Exeter; Russell Hesse, Tulare, newly elected vice president and Oscar Kline, Porterville. Top Jerseys Consigned To County Sale

Top Jersey cattle, classified "excellent" and "very good," with 500-650 pound records, will be offered at the Tulare Fair grounds Monday in the Tulare County Jersey Cattle sale that is being sponsored by the Tulare County Jersey Cattle club.

Most animals will be registered, however, some grade cattle will be offered. Special attention will be given Future Farmers and 4-H members who desire to buy project animals.

Cattle to be offered are now on display at the fair grounds in Tulare and can be seen by prospective buyers. The sale will start at noon, Monday, with lunch available on the grounds, beginning at 11 o'clock.

Chester Gilbert, Porterville, is head of the sale committee; catalogues can be obtained from Ronnie Carr, secretary, Tulare County Jersey Cattle club, Rt. 1, Box 284, Tulare.

DAIRY CATTLE FITTING, SHOWING TO BE DEMONSTRATED

Fitting and showing of dairy cattle will be demonstrated by Farm Advisor Ross Thomas for the benefit of county 4-H club members at the Tulare county fair grounds, Saturday, April 7, 10 A.M. Used in this demonstration will be Jersey cattle consigned to the Tulare county Jersey sale next Monday.

The demonstration for 4-H members and leaders is being held to prepare for exhibits of dairy projects in next month's annual Tulare County 4-H fair, and other spring shows.

Vandalia Bid

Contract for construction of a new Vandalia school south of Porterville was this week given to L. H. Hanson & Son of Fresno by the Porterville Elementary District board on a low base bid of \$165,231, plus \$2,700 for tile in toilets and \$1,550 for a public address system. The building will include nine classrooms, kindergarten and administrative rooms. Contract for a Bartlett storage building also went to the Hanson company for \$10,589.

KREIDER FILES

Boyd Kreider, clerk of the Porterville Elementary School district board, this week filed for reelection to the board.

VARIED PROGRAM TOMORROW FOR ANNUAL COMMUNITY DAY AND STRATHMORE REUNION

A varied program of entertainment, including a barbecue, baseball game, dances and musical entertainment, is planned tomorrow (Friday) at Strathmore, where civic organizations are joining forces in the annual Community day and homecoming.

One of the day's highlights will be a barbecue beef dinner, to be served at Strathmore high school at 5 P.M., with the menu to also include a mixed greens salad, beans, hot rolls and butter and coffee.

Entertainment will be provided during the barbecue by the Strathmore high school band, by pianists Lee Aken and Mary Lee Woody, by Bob Hosfeldt and Bob Belshe in a comedy act; by Harold Smith, vocalist; by a trio, composed of Donna Peterson, Carol Fillmore and Maxine Marks and by Ronald Humphrey, guitarist.

The homecoming for alumni of Strathmore high school, and friends, will start at 1 P.M. at the school and will be followed by a tea in the school cafeteria. At (Continued on Page 10)

TWO GIRLS, Donna Peterson and Carol Fillmore, who will appear with Maxine Marks on the entertainment program that will feature Strathmore's annual Community Day and Homecoming, tomorrow, at Strathmore.

(Farm Tribune Photo)

ALFALFA SEED MEETING

Latest information on production of alfalfa seed will be discussed by Victor Osterli, extension agronomist, University of California, at a meeting of Tulare county ranchers, scheduled for the Tulare county chamber of commerce office in the Visalia municipal auditorium in Visalia, 8 P.M. April 11. Farm Advisor Ralph Worrell points out that production of alfalfa seed is a rapidly increasing industry in California; all interested persons are invited to attend the Visalia meeting.

SENIOR HIGH SCHOOL GIRLS OF COUNTY WILL COMPETE FOR QUEEN OF PORTERVILLE ROUNDUP; TRYOUTS SET FOR LATE APRIL

High school senior girls at Porterville, Delano, Tulare, Strathmore, Woodlake, Lindsay and Exeter were this week invited to participate in a contest to select a queen for the 1951 Porterville Roundup, May 5 and 6, with the Porterville winner to not only reign over the local Roundup, but to also attend the California rodeo at Salinas as a queen contestant there.

Winner of the Porterville contest will also receive a \$100 scholarship to Porterville college, or as an alternative, may receive a complete western outfit for the Salinas show. Winner of the Salinas queen contest receives a \$500 scholarship, and other honors.

Judging in the Porterville contest will be held April 28, at 1 P.M. in the Monache theatre, for appearance, with Frank Brown as master of ceremonies, and on Sunday morning, April 29, girls will be judged on horsemanship at the Rocky Hill arena, with the winner to be announced there. A luncheon will be served at the rodeo grounds April 29.

Judges will all be from outside Tulare county; any girl who is a high school senior can compete. Chairman of arrangements for the queen contest is Virginia Foran.

We Only Heard By BILL RODGERS

IN THINKING about this and that, we wonder what the John Deere company and the Balfour-Guthrie company were thinking about when they sent Messers. Carroll and Carlson, respectively, to speak before the Porterville Farm Bureau Center last week. While Messers. Carroll and Carlson appeared to be very fine gentlemen as individuals, they turned out to be sadly lacking as public speakers (we're putting it mildly) and their presentations were a considerable disappointment to the farmers who heard them . . . Which means that the two companies did themselves no good whatsoever in the field of public relations, and which further means that their representatives left behind them some rather embarrassed Farm Center committee-men.

A GREAT piece of educational advertising is General Electric's "More Power To America" special train that was in Bakersfield recently. This 10-car train carries several million dollars worth of electrical equipment, set up in cutaway models, operating units and many types of displays. Production of electricity, uses of electricity in industry, in recreation, in war, in the home are featured on the train, and while the average person sees many electrical devices that are beyond his understanding, certainly anyone going through the train must leave with a new idea of the magnitude of the electrical industry . . . Of considerable local interest is a small display in which a farm scene is enclosed in glass, and in which artificial rainmaking is demonstrated — clouds are formed by steam, a small airplane drops dry ice, and flakes of snow form and fall . . . And there is a cutaway turbo-jet airplane engine; operating turret guns as used on war planes; a coke machine that pours the coke into a paper cup for you; a demonstration of atomic-hydrogen welding; a sun motor in operation; 2,522 lamps of 84 different types; displays of textile mill equipment; working models of great electrical systems; electronic "eyes;" displays of new-type street lighting and traffic signals; mine motors; marine motors and equipment; mechanical hands, used to handle radioactive material — hands that are able

to pick up a penny, put it into a small jar, screw a lid on the jar, unscrew the lid, dump out the penny and put the jar down, as a demonstration, and many hundreds of others electrical developments . . . The train has stopped at 108 cities and has travelled 17,700 miles to date.

AT THE Jersey Cattle club picnic at the O. C. Mays ranch recently, we got to talking with Mr. Mays about — Jersey cattle? No. Baseball. Seems that brother of O. C. Mays was the great Carl Mays, who pitched in the majors for 19 years — playing with the famous Boston Red Sox club of 1915 that won the world series, the club that also had a fellow by the name of Babe Ruth . . . Both Ruth and Mays, with a couple of others, went from the Red Sox to the New York Yankees and Mays pitched for the Yankees for several years. . . . Incidentally, O. C. Mays played a lot of semi-pro ball in the San Joaquin valley himself, principally with Associated Oil at Taft and Fellows. At one time the Yankees had their eye on him, but because of an arm injury, suffered when he was a small boy, he figured that professional baseball was not for him . . . Although he was a hustling player in his younger days, Mr. Mays says he never worked any harder in any ball game than he did last summer as a Packer spectator.

EXCELLENT PROGRAM SET FOR REALTORS

Realtors from Madera, Fresno, Hanford, Visalia, Tulare and Bakersfield will travel to Porterville by bus to attend a full-day sales conference to be held at the Porterville Fraternal Center on Tuesday, April 10th.

Frank Caffray of Apple Valley will be one of the principal speakers and will talk on "New Ideas That Make Sales." Mr. Caffray has been associated with such developments as Belmont Shores in Long Beach, greater Washington Blvd. center and other major developments in West Los Angeles, employing 350 to 375 sales people continuously. In 1937 he and his partner, the late Benny Tripp, joined Charles Hopper starting Lakewood Village at Long Beach. From Lakewood, late in 1945 he joined with others to start the development of Apple Valley.

SAD LINOLEUM NEWS

George Widman has received word from the linoleum manufacturers that there will be no more blue or yellow linoleum. Why? Dunno, something to do with scarcities of some things. Dunno for how long it will last, either.

HONEY — Last year's clover, sweet clover, and alfalfa honeys are plentiful. Also in good supply is new crop citrus honey.

Try it as a topping on cereals or spread with peanut butter on toast.

As far as cattle are concerned, you can probably make the most money with stocker or feeder cattle that make fast gains on pasture. Plan your feeding program so that you put most of the gain on with grass.

Pickled Beets

Fresh beets are in now and an excellent quality (where I buy 'em, they are). However, for pickling, you can use either fresh or canned beets.

This is the recipe I used to make pickled beets for the Business and Professional Women's Smorgasbord last year . . . they gave me the recipe, and I like it better than any other. I'm sure I've given it before, but have another request now.

4 c. slice cooked beets
1 large onion
2 c. vinegar
1 tsp. salt
1/2 tsp. pepper
1 tsp brown sugar
1 tsp. caraway seeds.

Slice the beets $\frac{1}{8}$ inch thick, slice the onion. Combine the remaining ingredients and boil them for 3 minutes. Pack the beets and onions into clean jars in alternating layers. Add the hot mixture and fill the jars to over-flowing. Allow to stand 24 hours before using. Makes 3 pints.

GRAFT OLIVES

From the middle of March through the month of May is the best time to graft olives, according to Farm Advisor Karl W. Opitz, however, after April, it is more difficult to find suitable scion wood, and grafts do not start as well.

Non-fat milk on the market these days is good tasting and good for you. It amounts to almost the same thing as skimmed milk . . . BUT it has added value.

Vitamins A and D from natural sources are added to this milk that has had the fat removed.

Slim milk is a great aid to dieters. The minerals and vitamins and protein found in it are vital for good health, the removed fat is an aid in losing pounds.

When you first begin to drink Slim you may think it "thin" tasting; but after you've used it a few days it'll begin to taste rich and whole milk will seem so rich that you'll find it hard to get down.

Scalloped Potatoes And Ham

Ham and scalloped potatoes are an excellent combination. I've given this recipe before but am perpetually being asked to repeat it.

Arrange slices of ham in alternate layers with sliced potatoes and onions and use ham gravy to fill the baking pan. Be sure you use plenty of gravy; it can be thinned with milk.

You'll want a liberal dose of pepper in this, but the salt in the ham is just about right for the potatoes. This dish uses up oversalty ham even better than beans do.

You may find that there seems to be an extra amount of grease that has cooked out. Pour the grease off before you serve the dish and as you are serving; it's

hard to remove after it cools; it's pours off easily while it's hot.

Baked, boiled, or raw ham may be used this way and it's a good way to use up the bone trimmings that are salty or tough. Allow plenty of cooking time to get both the potatoes and ham well done.

Wallpaper Does Tricks

You can make any room in your home look new again with a few rolls of wallpaper.

The question of when to buy wallpaper is easy to answer. There is no waiting for anything to dry, no mess after the job is finished. It can be bought at any time. You don't have to wait for any particular kind of weather.

Wallpaper can be chosen to fill a lot of needs. If you have few furnishings, you will find that wallpaper gives the room a dressed-up feeling. It provides enough pattern to enliven even the plainest types of furniture. This means, too, that the room won't look barren if you have to put off purchase of draperies.

Obviously a room that is short on natural light should be papered with a pastel figured paper such as one of the lovely lemon yellows or pale lichen greens. Rooms which are flooded with sunlight can appropriately be papered with more subdued shades.

Even if a room is too small, certain patterns are expressly designed to counteract this effect and produce a feeling of greater spaciousness such as the vertical stripes and the increasingly popular space plaids.

When a room gets monotonous or dull, that's the time to buy wallpaper. If several rooms are the same size, they can be individualized by interesting wallpaper treatment, giving totally different impressions instead of box-like effects.

SHOPPING

Gardening Now

SPRAY AND DUST

Now begins the battle of the bugs. Get on your eagle eyes, have the spray makin's and machines ready, the dusts and blowers handy.

As the plants flourish with spring juiciness . . . so do all bugs, blights, diseases, and parasites.

Be sure to read on the packages about the bug killers before you use them. Be sure that you are using the proper dope for the right enemy. Many sprays and dusts will kill only certain types of pests . . . others will thrive on the poison.

Remember that in almost every case, the dusting and spraying must be done over and over again until you're pretty sure that you're gonna be the one killed. Keep in mind . . . you'll never kill all the pests . . . it's you or the garden.

Be sure to look at the ground as well as the plants. Cutworms, army worms, slugs, snails, millipedes, sowbugs, and heaven only knows what-all else are lurking there . . . waiting for nite raids.

PLANTING

If you haven't divided or transplanted or bummed or swiped chrysanthemums by now . . . hop to it. Just get the new sprouts coming up around the edges of the clumps or chop out a section of the old clump . . . meet any part of a chrysanthemum clump or shoot has roots now . . . you can hardly kill 'em.

This is still planting time for camellias, azaleas, and dahlias. You must provide plenty of peat moss and drainage material for camellias and azaleas. Dig a bigger hole than looks reasonable, put a lot of broken bricks, rocks etc. in the bottom of it; mix dirt and peat moss for a floor and fill with a mixture of peat and dirt. Keep adding more peat all the time.

Dahlia tubers look like sweet potatoes and it doesn't matter which end of the bulb is "up" . . . you plant it on its side anyway!! They like a sandy, loose soil and can stand shade but like sun at some time of the day.

VEGETABLES
Asparagus crops can still be

planted, so can onions, radishes, beets and turnips for greens (the roots are likely to be woody), spinach, leaf lettuce, carrots, swiss chard. Tomatoes, peppers, squash, and melons and egg plant can be set out under hot caps.

Watch your vegetables for pests . . . bugs, worms, and other varmints like vegetable plants as well as flowers.

Mojave Desert Trip Easy, Close, Exotic

Went to the desert after these pages were finished last week. Stayed in Mojave and went prospecting . . . for pre-history.

There's a petrified forest gradually being uncovered in the hills behind Garlock. It'll probably be another thousand or so years before it's really in plain sight. The same hills are full of gem stones and rock-hounds.

The best way to get into the area is by taking the road that turns into the hills opposite Salt-dale between Mojave and Garlock. It's a dirt road and marked only by home-made signs that mention the gem stones and opals and advertise Burro Schmidt's

Tunnel.

Whether you know a gem stone from a clod . . . makes no difference. The country is fascinating. Pink mountains, weird streaks of color, eroded masses on edge, make it an eye-popping experience. The Dutch Cleanser mine is back in there too.

I picked up a heap of rocks and some of them look to me like petrified twigs or roots in gobs of primeval mud. Other rocks I chose cuz they are just plain purty!

Red Rock Canyon, on the main highway to Lone Pine is strange too. You can turn off west into it and see more on-edge, wild-colored world. It, however, has sprouted the largest crop of bean cans, beer cans, and kleenex-bearing shrubs that I've ever seen . . . not very interesting, I thought.

North of Barstow, on the road to Camp Irwin, are fossil beds. Again you turn left and take a dirt road. Behind the fossil beds is "Rainbow Canyon" in the Saucer Butte. It is probably the most nightmarish sight you'll find. The road is in the bottom of a wash and the walls are errie.

Maybe I picked up things from the fossil bed . . . I sure picked up plenty! Stuff that looks like petrified shell formations or maybe petrified mud bubbles, is plentiful and I'm sure I had enough to pick up sticks. Anyway, they're pieces of rock that look exactly like petrified wood.

Got in a sand storm between Barstow and Mojave and have added to the collection the finest sand-blasted windshield in the valley.

SPANISH RICE

Spanish rice is an economical way to make a main-dish meal that is a rib-stick-to-er. You can put all your meat scraps into it for added flavor and volume.

Brown onions, bell peppers, and garlic in meat drippings. When the vegetables are nearly done add the raw rice and brown it.

To this, add tomato sauce or canned tomatoes; if you use sauce, you'll have to add water. Cover it and simmer it until the rice is done and it's pretty dry.

Chili powder or ground dry chilis can be added if you like it hot. For true Spanish flavor add a pinch each of oregano leaves and cummin seeds. Crush the leaves and seeds well and mix them in well.

The seasonings should be added as early as possible so the flavors will be toned down and spread throughout the rice.

Dollar Days In Porterville Friday, Saturday

Shopping in Porterville Friday and Saturday will pay off in dollars saved. Merchants in every type of business are offering specials this weekend.

Clothing, household needs, paint, gift items . . . there's nothing you can't save on by making a tour of the Porterville stores.

The local merchants have thousands of good buys for the budget-minded housewives. The event has been planned by storekeepers as an answer to our yelps about the high cost of living.

Supporting the stores by shopping heavily this weekend is the wise course. Merchants, plagued right now with the new sets of O.P.S. regulations that include a complete inventory, have gone to considerable expense and trouble to stage this Dollar Day event . . . let's show them we appreciate it!

Shopping . . . with Betty

By Betty Scott

Finally, the wind got so bad in the desert last week that the birds gave up and sat still; but earlier they entertained me with their imitations of a drunk. They got their wings crossed in the wind and acted for all the world like a drunk with his feet mixed up! Certainly must take an ocean of paint to keep desert buildings covered with the sand storms what they are! All those desert rats should attend BREY-WRIGHT'S BIG PAINT SALE. While it last you can get fine bargains on 100% Pure Outside Paint in color Tru-lite Gloss Enamel in colors, Tru Glo Semi Gloss Enamel in color Quick Dry Super-lux Enamel in colors, Tru Kote Flat Wall Paint in colors, and Texolite Wall Finish. Look on another page for the bid in this paper listing the prices . . . You'll be amazed!

But then, there's always something new I dunno about! Like the New, Improved Helene Curtis Fashion Wave that they have at FLORENCE PEAK'S BEAUTY SALON. Seems it's a real dandy and I didn't even know it was here yet. Call 107-W for an appointment . . . and if you know about the boats on the desert, call me, huh?

Now we'll see if you're a local-yokel or a stranger . . . this is a quiz. When the Sisters drive by in Nan McHenry's "Mert" whoop are you startled or do you wave and think nothing of it? If you stop in your tracks and think you're seeing things . . . you're still a stranger. I know, I was a stranger once; now I'm unaware of the strangeness of the sight as any native. Same way we get used to PROCTORS CLEANERS being Newell Smith's establishment and speak of taking things to Smitty's Proctors! Sounds goofy, but make good sense . . . you'll get wonderful cleaning work on your clothes at Proctors and they give them all free "Retexing," a process of re-turning the natural springiness to the fibers.

Well, it's real . . . Justesen's new store is really on the way . . . they moved in the Chick Sale so the carpenters, etc., can't be far behind. All this is happening on South Main at the R. R. King, right across from Porterville Electric, down past EDWARD'S PHOTOGRAPHY STUDIO, where you get the best pictures taken. This is wedding season and no wedding plans are complete without pictures by Edwards. Jeff has a lovely album for your wedding and will make ten pictures to go in it . . . all for \$25.00. Call 1385-J and make your appointment.

This is also bird nesting season and I'm reminded of a life-long puzzle. Ever since I was a youngun I've been trying to figure out where in the world the birds get all the bits of string they use in their nest building! If you or I wanted a piece of string we could search the whole ranch futilely, but the birds drag it in by the bushel! Where from? While you mull that one over . . . I know where the lovely "Angel Chimes," that so many of you want, come from . . . from Sweden by way of BREY'S BOOK SHELF. At last they've arrived and don't knock Marie down in the rush . . . there is only limited supply, but let's be ladies about it! These are the old fashioned type that you've been waiting for. Also just arrived are the new "Scratch A Line" notes and "Kitten Notes" that lots of you have been hunting for. And remember, right after the date is set, it's time to see Marie about wedding invitations, announcements, and calling cards. Marie lends the wedding book, you know and whatever style your wedding, it'll be right if you go to 600 N. "D."

All it takes to remind us of the hardness of our water is a trial away! I'd forgotten how hard it is until I spent a few hours at the ranch Sunday and washed a million dishes in CULLIGAN SOFT WATER. Nearly drowned in the sud before I remembered where I was! What a difference! No more plumbing bills. The water heater works like a charm and the power bill to run it is way lower than it used to be. I can prove that Culligan saves you money. Call Lindsay 2-4050, 143 W. Samoa.

Proves something . . . that house-cleaning is what I always said it was (unprintable) . . . I guess. Woman I know has an urge to clean thoroughly every spring and fall. She's been taking her bed apart and hauling the springs out to be washed off in the yard for five years . . . with this particular bed. Every time it fit back fine and she slept better for it. Yesterday she did it again. BUT last night she crawled into the clean bed and it fell down! Up she got and fought it back together and crept in again just in time to have another slat let go! She slept on the floor. This morn they extended the slats with boards and nails. Mystery, why after five years are the slats suddenly too short? LUMLEY-REED INSURANCE AGENCY may have her name from me for a small consideration and sell the poor soul some kind of insurance. They have every kind there is, I think. Be smart, get all of your insurance from them.

Most columnists write about the people who are going to be parents and grandparents, but that seems like pretty obvious reporting to me; so I'll tell you how to save money to buy baby clothes instead. PORTERVILLE PRODUCE has some good buys at Orange and "C" again. Celery, biiig bunches for 10c, (one has lasted me two weeks.) Potatoes \$2.25 a 100 lbs.; Dry Onions 6 lbs. for 25c. Finest flavored Bananas 2 lbs. 29c; Red Delicious Apples 2 lbs. 25c. Pippins 2 lbs. 19c; Fresh String Beans 25c lb.; Rhubarb 25c lb. Oranges 25c and 35c a doz.; Avocados (large) 19c each; Also fresh cabbage, cauliflower, carrots, green onions, beets, radishes, and asparagus ordered at good prices for the weekend.

PORTEVILLE, CALIFORNIA

Poultrymen have had good success with BHC or 5 per cent DDT oil in controlling blue bugs, fowl ticks. Poultry house walls, stns, posts and roosts should be rayed, getting into cracks as ell as possible.

Research workers report that bugs are better carriers of plant growth regulators for brush control than water when used at low

gallonages. Plant growth regulators used were 2,4-D, and 2,4,5-T at rates of 5 to 10 gallons per acre.

If You Have Something To Sell and are in a big hurry to sell it, let the classified advertising department of The Farm Tribune prove it's ability as a speedy, efficient sales medium.

THE OLD DAYS.

From miscellaneous files of pioneer Porterville newspapers, provided through the courtesy of Howard J. Frame, Porterville.

NOVEMBER 12, 1891

Last Saturday was the first anniversary of the inauguration of the free reading room. A meeting of the reading room club was held on that day, and in looking back over what they had accomplished, the ladies felt they had sufficient reason to be encouraged in their work.

The reading room is entirely free from debt and a hundred new books have been ordered. Mesdames Newman, Shuey and Brown were appointed to select these books.

Senator Berry is sinking wells and putting in pumps for the purpose of raising water to irrigate a large portion of his ranch near Lindsay.

He planted 160 acres of raisin grapes last winter and they made a fair growth this year without irrigation, but the coming season, the vines will be watered from the wells.

Banana trees may be seen growing at the homes of T. R. Hubbs and A. M. Coburn and on the Talbot ranch near Globe. What can't be raised in Tulare county isn't very widely known.

The window and door frames for the new Catholic church are in position and the brick work is progressing. This structure, when completed, will be a source of pride and improvement to our town.

A number of improvements have been made in the Pixley schoolhouse, which has received a new coat of paint, has been surrounded by a board fence and has had a bell added.

It has been announced that the division headquarters of the Southern Pacific railroad will be removed from Tulare to Fresno on December 1st.

Strathway, owned by Capt. Hayes of Poplar, has reduced his record to 2:20, giving his dam, Countess by Hambletonian, 725, the distinction of having two performers in the 2:30 list.

Visitors last week in Porterville from Mountain View included L. J. Duncan, A. W. Hickman, Mr. and Mrs. C. L. Wilson, Mrs. A. B. Clemment and Mrs. G. A. Millinghausen.

G. A. Richardson and C. L. Wilson of Mountain View have purchased 200 head of hogs to fatten on their range.

At Selma, a hard fight is being made against the proposition to vote bonds to construct irrigation works under the Wright act.

The farmers around Pixley are all very busy getting in their grain.

Wild geese are reported to be plentiful around the banks of Tulare lake. The banks of the lake have receded about a mile during the past season.

D. Abbott went to Visalia on business last Saturday.

Dr. Gothard, of Visalia, is spending a week in Porterville.

B. Gully of Tipton was in Visalia for a short visit the first part of the week.

Harry Quinn, of Poplar, paid a visit to the county seat last Saturday.

Frank Wright came near losing a valuable horse on Tuesday. The animal was shedding its colt's teeth, when one lodged in its throat and it came near choking to death before the obstruction could be removed.

Mr. and Mrs. J. C. Bigham of Woodville were visitors in Visalia last week.

JEWELRY, WATCH REPAIR,
SCHOOL SUPPLIES ARE
JEWEL BOX SPECIALTIES

JEWELRY, WATCH repair and school supplies are specialties of the Jewel Box, opposite the high school on west Olive street, where, for the past two years, Ranold and Hazel Ekman have operated the business.

MR. EKMAN has been in the jewelry business in Porterville for about 15 years. He started his own business in March of 1942, then moved to the Olive street location two years ago.

NATIONALLY ADVERTISED lines are carried at the Jewel Box — such as Lovebright diamonds, 1847 Rogers silverware, Community plate, Buzzza-Cardoza greeting cards, Shaeffer pen and pencils, Hamilton and Elgin watches. In addition, the Ekmans carry costume jewelry, electrical appliances and a complete line of school supplies.

EXPERT WATCH repairing is one of the services of the Jewel Box, with Mr. Ekman having had 15 years experience in this field of work. At present he is watch inspector for the Southern Pacific in this area.

BOTH MR. and Mrs. Ekman are long-time Porterville residents, Mr. Ekman living in the community since he was a year and a half old; Mrs. Ekman, the former Hazel Johnson, being born here. Their Jewel Box offers a pleasing appearance, both inside and out and, of course, the quality of the products and services they sell is guaranteed without question.

WHEN YOU'RE driving by — or it will pay you to make a special point to drive by — stop in at the Jewel Box. There's no parking problem and you'll like what you find there.

COMMERCIAL TIRE, EMORY KINCAID WIN AWARDS

Commercial Tire Service company, owned by Jesse F. Eckles, won the Haener trophy as the outstanding business organization of the Porterville community during the past year, with the presentation made at the annual meeting of the Porterville chamber of commerce held last Thursday at the Porterville high school cafeteria.

Emory Kincaid won the year's outstanding individual award, presented by the chamber of commerce and the Tulare County Cattlemen's association won a Smith Bakery cake as the outstanding agricultural organization of the year.

Musical entertainment was provided by Miss Marjorie Spees, violinist, with Mrs. Marianne Spees as accompanist; Darlene Zeddies offered vocal selections, with Virginia Goldsmith at the piano; Walter Emory led community singing with Bill Rodgers at the piano.

Chamber president Earl Hodges told of accomplishments of the chamber; Ed. Dick, secretary, and John Baugartner, president of the California Cattlemen's association, spoke briefly and Ian Scotty Mac-Marshal-Pryde as principal speaker, told of experiences on an African safari. The banquet honored the Tulare county cattle industry;

"SMALL BUSINESS"

By C. WILSON HARDER

Look for more startling revelations out of Washington. Some big scandals, prosecutions, are bound to come.

Possibility of cease fire in Korea, no war with Russia for a long time, throws scare in certain Washington circles who planned on confusion of all-out war effort to cloak actions.

Charles Wilson tells Senate Small Business Committee that without war, defense production for next two years will only take \$50,000,000 out of present \$300,000,000 production, or less than 17%.

Indicating the confusion, Wilson, in a burst of candor, told the committee "Big business admittedly will take care of itself." The former head of General Electric then said that he believed small business would have to develop salesmanship to a superior skill to share in defense work. This, of course, is in contradiction to both the spirit and language of the Defense Production Act.

The facts are that even if every small business could maintain a Washington sales office equal in size and ability to a major corporation, the job would be rough. After all, the most skillful poker player cannot win when a cold deck is dealt.

Facts are that defense responsibilities are so confused, major leaks are possible. The decision of the military to abandon free and competitive bidding in favor of purchase by negotiation is an example of how scandals are made. The infamous Garson case, and that of ex-General

©National Federation of Independent Business

Meyer were scandals bred by such closed door tactics.

The other day on the Congressional floor, Rep. T. B. Morton of Kentucky brought up one matter that may have repercussions, from data supplied by William D. Menefee, a small Louisville paint manufacturer.

The Navy's Aviation Supply Office, on behalf of Army engineers asked four big paint companies to quote on 6,487,000 gallons of paint, packed in quarts, half gallons and gallons. This is believed to be the largest order ever sought at any time by government. The big four paint companies said they could not handle it.

So the Navy then asked 50 other big paint makers to quote. Menefee's company, who had bid on previous orders, asked for the opportunity, was told bids were closed.

Yet there is nothing in the record to show that the call for bids was ever advertised or published. Nor has there been any explanation of why so much paint is needed in 120 days. The order will upset the entire paint raw material market. It is probable that spread over a longer period, the effect on the economy would be minimized.

Marshall Plan gives France \$4,650,000 to increase steel production.

Rep. Clare Hoffman (Mich.) wants to know why, pointing out France just recently shipped 139,000 tons of steel rail to Red China.

If it once becomes clear that the nation is not going to immediately engage in an all-out war, a lot of matters will be delved into. This has resulted in a new greeting in Washington:

"Are you prepared for the consequences of peace?"

SAWMILL SOLD

Now being consummated is sale of the Rouch Sawmill Ltd., at Springville, to the Harbor Box and Lumber company of Los Angeles, with all Rouch land, equipment, rolling stock and leases, except the Jordan Peak ski area, included.

The Mt. Whitney Lumber company, in operation at Johnsondale, is a subsidiary of the Harbor Box and Lumber company.

"Timing Is Important In Dairy Breeding," is the title of a new publication that is now available to county dairymen through the

office of the county farm advisor. Information in the leaflet will aid dairymen in getting better breeding efficiency.

THE FARM TRIBUNE

LEGAL NOTICES

ed to said District as liquidated damages if he does not.

(6) That after opening and reading all written proposals at the time above mentioned, this Board shall call for oral bids. If any responsible person thereupon offers to purchase said property upon the terms specified herein, for a price exceeding specified herein, (5%) per cent of the highest written proposal, then the oral bid which is highest, if made by a responsible person, shall be finally accepted. Such person must be ready to them and there tender the security mentioned in Paragraph (5), which may also be cash.

(7) That this Governing Board reserves the right, if it deems such action to be for the best public interests, to reject any and all bids, and withdraw the property from sale. This Board further reserves the right to delay final acceptance to any adjourned session of the same meeting held within the ten days next following.

(8) That the Clerk of this Board shall cause copies of this resolution, signed by not less than a majority of this Board, to be posted in three public places in said District, not less than fifteen (15) days before the date of said meeting, and to be published not less than once a week for three successive weeks in The Farm Tribune, a newspaper of general circulation published in said County.

67TH ANNIVERSARY OF TRAVER TO FEATURE MEETING OF TULARE COUNTY HISTORICAL SOCIETY NEXT SUNDAY; PICNIC PLANNED

(Contributed)

The next meeting of the Tulare County Historical society will be held at Traver on Sunday, April 8th. Many will join for a picnic lunch previous to the meeting

which will start at 2:30. The local committee will provide coffee and cream. This meeting will be held on the 67th anniversary of the auction sale of lots which was the real beginning of the town of Traver. At one time Traver was one of the chief grain shipping points in California.

A "tour" to the Savage Monument and Trading Post, northeast of Madera, has been set for April 22nd. Savage was probably the most prominent man in the "Tulare" valley a century ago. He was killed in a fight with the newly elected Judge of Tulare County very shortly after the county was organized.

His remains were moved to the site of one of his trading posts

and a monument of Connecticut granite was erected by his partner, Dr. Lewis Leach in 1855.

It is interesting that a number of granite quarries have operated within a few miles of the grave. Anyone wishing to join this tour is welcome and if they will write to the Secretary of the Society, Miss Annie R. Mitchell, 701 Watson Avenue, Visalia, a map of the area with directions for reaching the site will be sent. No formal program is planned but arrangements are being made to have several present who are students of the local history involved.

Strathmore Reunion

(Continued from Page 1)
3 P.M., Strathmore high baseball team meets Woodlake on the Strathmore field and in the evening, two dances will be held — a square dance at the elementary school and a modern dance in the Strathmore Towne and Country clubhouse.

Co-chairmen of the day are Merritt Anderson and Sam Richardson. A charge of \$1 will be made for families attending the event; this price including all attractions. A charge of 50 cents will be made for the dances for persons who do not pay \$1 for the all-day program.

Fair Goes To Ball Park

(Continued from Page 1)
Tentative plans of the fair board call for the placing of livestock inside the park along the fences. Merchant display building will be at the main fair entrance — the northeast ballpark gate — and evening entertainment will be staged in front of the grandstand.

Concerning entertainment, the fair board has closed a deal for five top circus acts and will also use local entertainment, including the Canterbelles. Featured will be merchant displays, Future Farmer and 4-H livestock, a junior fat stock sale and other special attractions.

Fair Manager Harry Britton reports that early response from merchants indicates the best commercial display in the four-year history of the fair.

As fair plans shape up, the following appointments have been made for the 1951 show: Cyrille Faure, livestock superintendent; F. R. Farnsworth, head of the beef cattle division; Chester Gilbert, head of the dairy division; Keith Kocker, head of the sheep and swine division.

Charlie Haener, entertainment chairman; Allan Coates, concessions; Alfred Browning, auditor; Drs. Dove and Crane, veterinarians and Lee Clearman, Frank Brown and Bill Rodgers, publicity.

Fair board members will meet tonight at Berkshires Palm Cafe for their regular weekly session. Headquarters for the fair have been set up in the office of The Farm Tribune, 522 North Main, Porterville.

AID IN PURCHASE OF 4-H AND FUTURE FARMER JERSEY CALVES

4-H and Future Farmer members can get help in selecting Jersey heifers for dairy projects in accordance with plans made by the Tulare-Kings Jersey Cattle club at their monthly meeting recently, at the O. C. Mays dairy in Success Valley.

The Jersey breeders appointed an advisory board consisting of Henry Elam, Farmersville, chairman; Axie Morgan, Visalia; A. A. Jenkins, Tulare; Sidney Longacre, Porterville; O. C. Mays, Success Valley; and Ross Thomas, Farm Advisor in charge of dairy work. This board will advise 4-H and Future Farmer members in the selection of Jersey heifers for a dairy project. They have set up a suggested price schedule to guide Jersey breeders in the sale of such heifers, starting with a price of \$60.00 for a three-day-old-registered heifer calf and working out a scale of prices with recognize age of the calf, production record of the dam, and official breed

classification of the dam.

The Jersey breeders recommend that junior members purchase heifers out of dams which produce 400 pounds of butterfat or better based on the mature equivalent and that their sires be at least a 4-star bull or a tested sire of 400 pounds with at least six daughters having completed lactations.
